

Education, Skills and Training Deprivation Domain Summary

The Dover District's National Rank (using the Rank of Average Score):

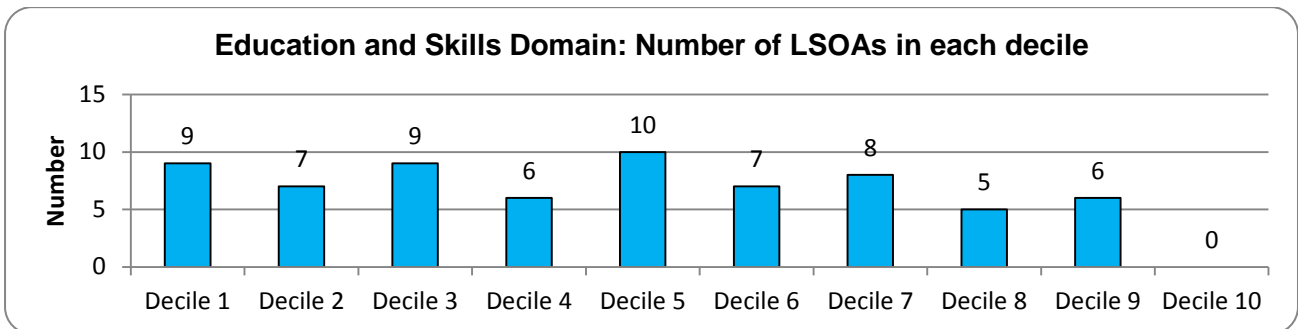

The Education, Skills and Training Domain measures the lack of attainment and skills in the local population. The indicators fall into two sub-domains: one relating to children and young people and one relating to adult skills. These two sub-domains are designed to reflect the 'flow' and 'stock' of educational disadvantage within an area respectively. That is, the 'children and young people' sub-domain measures the attainment of qualifications and associated measures (flow), while the 'skills' sub-domain measures the lack of qualifications in the resident working age adult population (stock). It is one of seven domains that combine to produce the overall Index of Multiple Deprivation.
